

MONTEREY BAY CENTRAL COAST

California's beautiful Central Coast is home to thriving communities, dynamic industries, motivated entrepreneurs, skilled workforce, and a rich history of higher education. Our team helps connect you with local site opportunities for your business. We offer efficient one-stop contact for site location searches, and can connect you with the right local resources to make a successful transition or expansion. Consider finding a home for your business on the beautiful Central Coast.

CITY of SEASIDE

Seaside is a diverse, coastal college city with beautiful panoramic views of the Monterey Bay National Marine Sanctuary. Seaside's miles of recreational

trails, thousands of acres of open space, distinguished schools, and nationally renowned golf courses all contribute to the highest quality of life that is expected in the Golden State. Host to Cal State University Monterey Bay, the award winning Bayonet and Black Horse golf courses, Fort Ord National Monument, Seaside Beach, as well as community-related events there's never a dull moment in Seaside.

Seaside celebrates the natural beauty of the community while also working to stimulate economic growth by retaining a knowledgeable workforce, attracting new businesses, and encouraging growth

and prosperity for existing establishments. The City Council has been successful in creating a business friendly and responsive pro-business environment by partnering with the business community—from Planning to Purchasing, Public Works to Police and Fire, each department is united in a common goal to support your business. Whether you are a Fortune 500 company or a start-up, we are here for you. We would love to meet with you and discuss your business plans and future needs.
